# Measurement How-To's

**Full Chest Circumference**  
Taken at the fullest part of the bust with the tape is parallel to the floor.

**Waist Circumference**  
Taken where a string settles on your waist, parallel to the floor unless you have a figure problem that dictates otherwise.

**Full Hip Circumference**  
Taken at the fullest part of your hips no matter what the depth, and parallel to the floor.

**High Hip Circumference**  
*Refined Fit Only*  
Taken at the halfway point between your Full Hip and your Waist levels, parallel to the floor.

**Shoulder Width**  
Measure between your left and right shoulder/armhole points.

**Upper Chest Width**  
*Refined Fit Only*  
Measure across your chest at the point where the armhole would nip in furthest.

**Shoulder Seam Length**  
Measure along your shoulder line between your shoulder/neck and your shoulder/armhole points.

**Shoulder Depth**  
Measure the vertical distance between the high shoulder point and the shoulder/sleeve point.

**High Shoulder to Bust**  
*Refined Fit Only*  
Measure along the body from high shoulder to the Bust Apex level.

**Bust Span**  
*Refined Fit Only*  
Measure from bust apex to bust apex. (tip to tip).

**Back Waist Length**  
Measure from the top of the bone at the nape of your neck, along your body to the waist as determined by the waistline string.

**Waist-Full Hip Length**  
A depth measurement taken over your body from the waist to the level at which you measured your full hip.

**Waist-High Hip Length**  
*Refined Fit Only*  
Measure over your body from the waist to the level at which you measured your high hip.

**Waist-Knee Length**  
*Refined Fit Only*  
A Depth measurement taken over your body from the waist to the top of your kneecap.

**Arm Length**  
Measure from your shoulder/armhole point over a slightly bent elbow, down to the wrist.

**Armhole Depth**  
A depth measurement taken away from the body between two levels on your body; the shoulder/armhole level and the underarm level.

**Upper Arm Circumference**  
A circumference measurement is taken around the fullest part of your upper arm.

**Wrist Circumference**  
A measurement is taken around your wrist at the point where you like your long-sleeved garments to fall. Compare to the measurement around your hand at knuckles and use the greater measurement.

## Measurements Used in Pants Tutorials

**Crotch Depth**  
A measurement is taken while sitting down to determine the distance from the waist level to the top of the chair.

**Crotch Length**  
A length measurement taken through the crotch from your front center waist to your back center waist.

See Chapter 4 for complete instructions on how to measure.
